

GRADING POLICY

- Letter grade scale
- Late work, programs, accepted only until last week before the end of the 6 week grading period

2015 - 2016

- Students will be using the free version of ModKit. This is a drag and drop style of programming similar to Lego Robotics.
- Competitive teams for interscholastic competitions will be offered but not required.

VEX IQ Robotics Room 103

CLASSROOM EXPECTATIONS

- Self-motivated
- Work independently and cooperatively
- Learn both building and programming concepts.
- Persistent practice of concepts
- Near perfect attendance
- Adherence to Walker school expectations and classroom policies

RETAKING ASSESSMENTS

Assessments are in the form of completed challenges and written projections and reflections on how the students' robots performed.

- Programming provides a style of thinking that is being more expected of young professionals in today's culture.
- Building sound structures provides challenges both mental and physical
- Students are expected to interact with staff and peers with integrity and honor.

A STEM education revolution.
